(a)
Event A: 6 MW × 2 h, event B: 1 h
Deliverable capability Γ_B/Γ_B^0
Event interval τ (h)
(b)
Event A: 6 MW × 1 h, event B: 2 h
Event interval τ (h)
Joint response + joint recovery
Independent recovery (rule)
IR post-event state + joint recovery
Proposition 1 bound (IR post-event state)
(c)
Capability gain of joint recovery (% of Γ_B^0)
Connection margin γ
1.30 45 47 40 33 0 0 0 0
